Dear Dr. Jiesong Zhang

**Subject: Invitation to Jiesong Zhang to conduct research at the Chinese University of Hong Kong as an Academic Visitor**

Following our recent communications, I am pleased to invite you to visit our Department of Statistics of The Chinese University of Hong Kong as an Academic Visitor during the time period from 26<sup>th</sup> August, 2019 to 25<sup>th</sup> February, 2020.

I understand you will be supported by a scholarship from the Huaibei Normal University, and that funding will cover the living, travel, medical insurance, etc. for the duration of your stay in Hong Kong. You will be performing research under my direction, and with members of my group on the fields of Mean Field theory and its applications in Actuarial Science. I am certain you will gain new knowledge and skills in our group, and I am equally optimistic that your participation will bring about new opportunities for collaboration between us. You shall be provided with the necessary facilities for carrying out the research.

In addition, based on our previous contact with you, we believe your written English is fluent enough to undertake research studies in our research environment, and your English level has enough to study and work in the Chinese University of Hong Kong.  
I look forward to your visit.

Yours sincerely,

Professor Phillip Yam  
Co-director of QFRM and  
former Visiting Professor of Columbia University in the City of New York
